

# AITOR VÉLEZ

## GRADUATE IN VIDEOGAME DESIGN AND DEVELOPMENT

Hi, my name is Aitor and I've studied videogame development. I'm 23 years old and my goal is to find a job that allows me to develop all the skills I learned during my time at college. I've been part of working teams and I took on different roles due to the multidisciplinary degree I was in. I am also open to be part of any technological project that can make me learn more and grow personally and professionally.

## EXPERIENCE

Junior Qa Support (iVoxx Global Podcasting) April 2022 – Present: My main responsibilities during this time have been bug reporting and testing. I've also been part of the technical support team, where I helped users with their technical difficulties or their suggestions. We work in an agile environment.

Video Game Design and Development (UPC) 2016-2021: In those years studying at the degree I was able to learn lots of aspects related to programming, game design and art(3D Modelling). I also learned the basics of data analysis, graphic design and team management skills including agile methodologies.

Some of the projects are published at: <https://aitorvelez.github.io/>

AD Hoc Classes 2021- June 2022: I've been a teacher to help high school students to pass their courses. Helping them has made me learn a lot about interacting with people and empathising.

## KNOWLEDGE AND ABILITIES

- Ability and experience in leading and organizing work teams (Management).
- Teamwork using agile methodologies. (Scrum, Kanban)
- Self-learning ability and curiosity to learn new things.
- Software knowledge( Jira, Adobe, Autodesk, Microsoft Office, Unity, Unreal, Github)
- Multidisciplinary profile, with experience in programming (C, C++,C#), knowledge of game design, and game art (3D modelling).
- Experience in working in a mobile oriented company.

## INTERESTS

- Sport is one of my main interests, as it helps me to switch off and just focus in physical activity. I see sport as a social and healthy activity.
- I really enjoy going to the cinema, specially I love Science-fiction films.
- I am very fond of travelling, interacting with people and exploring new places.
- My dream is to be part of any technological project that is ambitious, and can reach lots of people and make their lives better.
- And OBVIOUSLY, Video Games are my passion, and who knows if they will be my future vocation.
